Looking for a perfect solution for body fluid management? It is so easy with Hygie!

The Canadian hygiene product developer and manufacturer is presenting its revolutionary solutions to drastically reduce hospital-acquired infections (HAIs) in healthcare institutions and improve people's comfort, autonomy and dignity at home.

The founder of Hygie Canada, Eric Tanguay, invented a better method to limit the spread of pathogens in healthcare facilities.

He developed the Hy21® technology allowing to keep all body fluids at the point of care by using specially designed Bedpan, Vomit and Urinal supports as well as cutting-edge new commode chairs. These supports are used with Hygienic Covers® which contain a super-absorbent pad to solidify fluids within seconds. No more cleaning, no spills, no splashes!

This technology came to replace the very unsafe practice of cleaning or transporting soiled bedpans and other potentially contaminated medical devices with a high risk of contamination and transmission of nosocomial infections.

The new patented Hy21® technology guarantees a 100% compliance among the personnel of healthcare institutions which is a difference maker to reduce incidences of dangerous infections. This technology is becoming the new norm for body fluid management both in the healthcare industry and in home care.

THE HY21® TECHNOLOGY

Designed in Canada, the Hy21® technology is based on one principle: prevention. This technology is based on a support system made of plastic and Hygienic Covers® made from recycled materials. This makes it safe and easy for health care providers who are called upon to assist patients presenting a variety of infections. Recommended for single-patient use, these products retain bacteria in a closed space therefore help prevent and limit their proliferation. The range of Hy21® products offer a wide variety of features to better meet the patients' needs both in a hospital and long-term care environment or in home care services. Here is a list of our various Hy21® Supports:

- Hy21® Bedpan Support
- Hy21® Urinal Support
- Hy21® Vomit Support

ISO 13485 Ensuring patient safety

Obtaining ISO 13485 certification proves our commitment to the quality of our medical material. This allows us to demonstrate that our quality management system has been evaluated and found compliant with the regulatory requirements as well as with the needs of our clients.

A 50% DECREASE

in the incidence of nosocomial infections associated with *C. difficile**

Results of an independent study performed with the use of Hygie products at the Hôtel-Dieu Hospital in Lévis (Quebec, Canada)*

- ➔ A remarkable 50% decrease in the incidence of nosocomial infections associated with *C. difficile* was observed after the adoption of the Hygie technology.
- ➔ The savings from this reduction are considered to be tangible, given the estimated costs associated with *C. difficile* (management and increased duration of stay).
- ➔ The Hygie technology allows a single, streamlined process, applicable to all cases, whose implementation is simple and uniform.
- ➔ The Hygie method was considered to be the preferred solution for body fluid management as well as in the context of *C. difficile* outbreak according to the Quebec healthcare-associated infections committee.

BEDPAN SUPPORT

HY21® TECHNOLOGY

Product Code: BA-BASS-HY21-000

Used with Hygienic Covers®, the Hy21® Bedpan Support with handle replaces both the standard and orthopedic bedpan. The innovative Hy21® technology makes manipulation and use easier for all types of patients who require bedpans.

Recommended for single-patient use, the Hy21® Bedpan Support used with the Hygienic Cover® reduces the time needed to dispose of body fluids, as well as washing and disinfecting soiled equipment.

The supports are made entirely of durable and recyclable polypropylene plastic. They are stackable to optimize storage space.

SPECIFICATIONS

- Support size:
38.5 x 29.6 x 10.6 cm / 15.5 x 11.75 x 4 in
- Units per case: 20

with Hygienic Cover®

HYGIENIC COVERS®

FOR BEDPAN / COMMUNE CHAIR

Product Code: SA-HYGI-CLBI-000

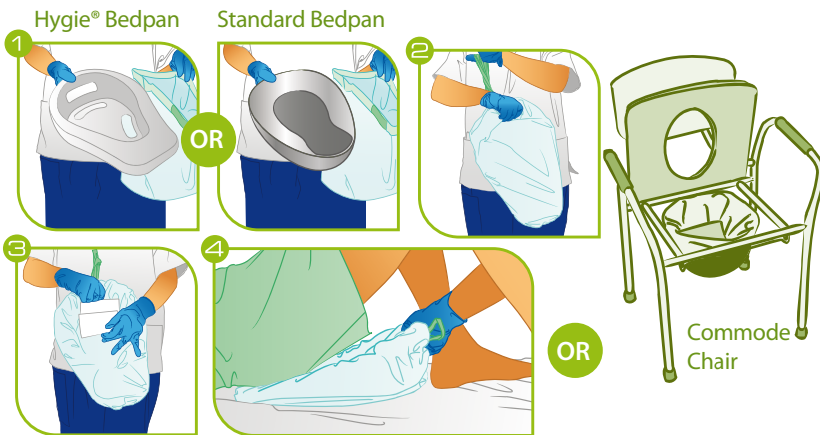

Hygienic Covers® for bedpan and commode chair are the perfect solution to manage and contain body fluids at point of care, while reducing the risks of cross-contamination.

In 30 seconds, the super-absorbent pad in the Hygienic Cover® will turn 700 ml of body fluids into gel, thus reducing cleaning and splashing. After use, simply tie and discard in the designated area.

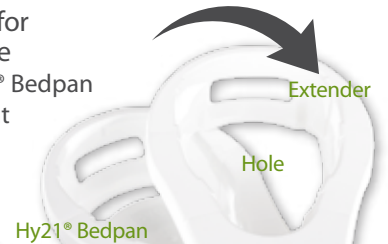

The Hygienic Covers® equipped with ties are made from recycled material and the super-absorbent pads from 100% recycled material.

SPECIFICATIONS

- Hygienic Cover® size: 62.2 x 45.7 cm / 24.5 x 18 in
- Unit box size: 20 x 11.4 x 11.4 cm / 8 x 4.5 x 4.5 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

URINAL SUPPORT

HY21® TECHNOLOGY

Product Code: HY-SUPP-URI3-000

For women and men

- Ergonomic design – helps promote self-toileting
- Wide opening – increases patient confidence
- Unique design – eliminates risk of spillage

**CAUTI issue?
Consider the Hy21®
Urinal Support with
a Super-Absorbent
Pad!**

Used with Hygienic Covers®, the Hy21® Urinal Support with handle allows to efficiently manage and keep urine at point of care. It is ideal for patients who are ill or with a loss of mobility. While easy for men to manipulate, this unique design was created to accommodate the female anatomy with a wide opening to avoid spills or leaks.

Recommended for single-patient use, the Hy21® Urinal Support with the Hygienic Cover® reduces the amount of time needed to dispose of body fluids and to wash and disinfect the soiled equipment.

The handle makes manipulation easy and can be used to hook the urinal support to the bed, keeping the urinal close at hand.

The supports are made entirely of durable and recyclable polypropylene plastic.

SPECIFICATIONS

- Support size:
13 x 9.5 x 24.4 cm / 5.1 x 3.7 x 9.6 in
- Units per case: 20

HYGIENIC COVERS®[®]

FOR URINAL SUPPORT

Product Code: SA-HYGI-URI0-000

Hygienic Covers® for Hy21® Urinal Supports is a quick and efficient solution to dispose of urine, while simultaneously avoiding inconveniences, such as cleaning, splashing and spills, and reduce the risks of cross-contamination.

In 30 seconds, the super-absorbent pad in the Hygienic Cover® will turn 600 ml of body fluids into gel. After using, simply tie and discard in the designated area.

The super-absorbent pads are made from 100% recycled material.

Optimal use with the Urinal Support

Adjust the position of bed to ensure that the patient is fully comfortable. The product is more efficient if the patients are in a half-seated position, rather than completely lying down on their back. Lay the super-absorbent pad flat in the Hygienic Cover® or fold in two and place it at the bottom of the Hygienic Cover®.

SPECIFICATIONS

- Hygienic Cover® size: 16 x 43 cm / 6.3 x 17 in
- Unit box size: 25 x 5 x 15 cm / 9.8 x 2 x 6 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

Part of the Hy21® body fluid management technology

VOMIT SUPPORT

HY21® TECHNOLOGY

Product code: HY-SUPP-VOM0-000

Used with Hygienic Covers®, the Hy21® Vomit Support with handles is a quick and efficient solution to dispose of body fluids, while simultaneously avoiding all inconveniences such as cleaning, splashing and spills; it is essential for any person with the urge to vomit, whether in an institution, at home or on the road. This product is particularly recommended for oncology, dialysis, postoperative recovery rooms and also ideal for gastroenteritis.

Recommended for single-patient use, the Hy21® Vomit Support with the Hygienic Cover® reduces the amount of time needed to dispose of body fluids, as well as washing and disinfecting the soiled equipment.

The supports are made entirely of durable and recyclable polypropylene plastic. They are stackable to optimize storage space.

SPECIFICATIONS

- Support size:
19 x 11.5 x 13 cm / 7.5 x 4.5 x 5.1 in
- Units per case: 20

Super-Absorbent Pad

with Hygienic Cover®

HYGIENIC COVERS®[®]

FOR VOMIT SUPPORT

Product Code: SA-HYGI-VOM0-000

Hygienic Covers® for Hy21® Vomit Support is the quick and efficient solution for anyone with the urge to vomit who wishes to avoid inconveniences such as cleaning and splashing, thus reducing the risks of cross-contamination.

In 30 seconds, the super-absorbent pad in the Hygienic Cover® will turn 600 ml of body fluids into gel, thus reducing cleaning, splashing and spills. After using, simply tie and discard in the designated area.

The super-absorbent pads are made from 100% recycled material.

SPECIFICATIONS

- Hygienic Cover® size: 25 x 25 cm / 9.8 x 9.8 in
- Unit box size: 25 x 15 x 5 cm / 9.8 x 6 x 2 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

Part of the Hy21® body fluid management technology

HYGIENIC COVERS®

FOR TOILET BOWL

Product Code: SA-HYGI-PCWC-000

The Toilet Bowl Hygienic Cover® equipped with ties and a super-absorbent pad transforms a traditional toilet into a dry toilet, thus eliminating the need for flushing. Recommended to dispose of urine and stools contaminated by biocides, or radioactive or chemotherapeutic substances. They are ideal when samples need to be collected for analysis, or simply when no water is available.

In 30 seconds, the super-absorbent pad in the Hygienic Cover® will turn 700 ml of body fluids into gel, thus reducing cleaning and splashing. After use, simply tie-up and discard in the designated area.

The Hygienic Covers® are made from recycled material and the super absorbent pad from 100% recycled material.

SPECIFICATIONS

- Hygienic Cover® size: 71 x 45.7 cm / 28 x 18 in
- Units per case: 360 (20 rolls of 18 Hygienic Covers®)

SUPER & EXTRA-ABSORBENT ABSORBENT PADS IN TWO SIZES - UP TO 1000 ML

Product Code: SA-TAMP-ABSO-020 (9,5 x 5 po)
Product Code: SA-PADS-8X95-000 (9,5 x 8 po)

SUPER-ABSORBENT PAD
22.8 x 12.7 cm / 9.5 x 5 in
600 ml and more

This super-absorbent pad will turn 600 ml of body fluids into gel in 30 seconds. It is recommended particularly for nosocomial infections, reducing cleaning and risks of splashing and spills. Practical and efficient, it makes collecting, transportation and disposal of body fluids much safer. Made from 100% recycled material.

Case of 400  

SPECIFICATIONS: SA-TAMP-ABSO-400

- Pad size: 22.8 x 12.7 cm / 9.5 x 5 in
- Units per case: 400 (10 packs of 40 units)

Case of 600  

SPECIFICATIONS: SA-TAMP-ABSO-020

- Pad size: 22.8 x 12.7 cm / 9.5 x 5 in
- Units per case: 600 (20 packs of 30 units)

EXTRA-ABSORBENT PAD
22.8 x 20.3 cm / 9.5 x 8 in
1000 ml and more

Larger and more absorbent. The new EXTRA-absorbent pad will turn 1000 ml and more of fluids into gel. This new size is recommended particularly for more abundant quantities of fluid, thus reducing cleaning as well as the risks of splashing and spills. Practical and efficient, it makes collecting, transportation and disposal of body fluids much safer. Made from 100% recycled material.

Case of 400  

SPECIFICATIONS: SA-PADS-8X95-000

- Pad size: 22.8 x 20.32 cm / 9.5 x 8 in
- Units per case: 400 (10 packs of 40 units)

WALL SUPPORT SYSTEM

ALWAYS WITHIN ARM'S REACH

Product Codes: HY-HOLD-PART-001,
HY-HOLD-PART-002, HY-HOLD-PART-003,
HY-HOLD-PART-004, DI-SACS-0000-000

The wall support system, adjustable based on the customer's needs, is the perfect solution for hanging boxes of Hygienic Covers®, Hy21® Supports such as Bedpan Supports, Urinal Supports, Vomit Supports, and the GO VOM® display. The Support is made from sturdy, cold roll steel with a durable powder coating finish. It contains no porous material, which simplifies cleaning and disinfection. Fastening included.

- 1 SPECIFICATIONS : HY-HOLD-PART-001
Support System for box of Bedpan Hygienic Covers® or 35-unit GO VOM® display
22.20 x 24.75 X 13.33 cm / 8.75 x 9.75 x 5.25 in
- 2 SPECIFICATIONS : HY-HOLD-PART-002

27.30 x 33.65 X 13.97 cm / 10.75 x 13.25 x 5.50 in
- 4 SPECIFICATIONS : HY-HOLD-PART-004
Complete Support System to hold all Hygie products
67.30 x 33.65 X 13.97 cm / 26.5 x 13.25 x 5.5 in
- 5 SPECIFICATIONS : DI-SACS-0000-000
Wall dispenser for Hygienic Covers®
Strong wall bracket made of plastic.
Easy installation and removal
Can hold up to 20 Hygienic Covers®
Fastening not included.
Units per case: 6

GO VOM[®] VOMIT BAGS

GRADUATED WITH ABSORBENT PAD

Product Code: 1-PRBV1 (50 units display)
 Product Code: SA-HYGI-GOVO-000 (35 units display)

Closable to prevent leaks

Reflux valve

Transparent and graduated, with an absorbent pad inside. Made from 100% recycled material.

Super-Absorbent Pad

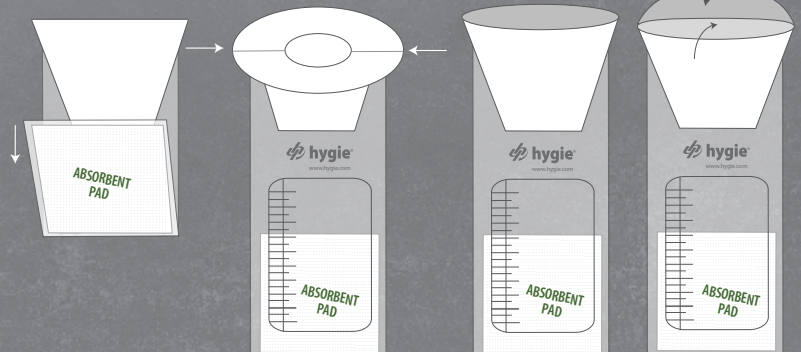

Hygienic and practical, the GO VOM[®] vomit bags with super-absorbent pads are ideal for emergency interventions (hospitals, medical clinics, EMS), as well as for travel sickness. They are also recommended for isolation in the event of nosocomial infection, in oncology and emergency room, long-term care as well as for home care services. Convenient for adults and children.

The super-absorbent pad in each GO VOM[®] have been designed to turn 300 ml of body fluids into gel within a few seconds, thus reducing spills. Graduated lines allow for measurements to be taken easily. The pads are made from 100% recycled material.

- 1** SPECIFICATIONS : 1-PRBV1  
- Transparent bag: 39.5 x 15 cm / 15.5 x 6 in
 - 50-unit display: 18.7 x 14.5 x 20 cm / 7.5 x 5.5 x 8 in
 - Units per case: 400 bags (8 displays of 50 bags)

- 2** SPECIFICATIONS : SA-HYGI-GOVO-000  
- Transparent bag: 39.5 x 15 cm / 15.5 x 6 in
 - 35-unit display: 20 x 11.5 x 18.5 cm / 8 x 4.5 x 7.25 in
 - Units per case: 420 bags (12 displays of 35 bags)

EASY TO USE

SUPER-ABSORBENT POWDER

SOLIDIFIES FLUIDS WITHIN A FEW SECONDS

Product Code: SA-SAPB-450G-012

**NEW
PRODUCT**

- Turns liquid into gel within a few seconds
- Capable of absorbing up to 300 times its weight in fluids and soft matter
- Limits the spread of bacteria
- Can be used for multiple purposes such as home, medical or industrial use
- To be applied directly on the fluids

SPECIFICATIONS

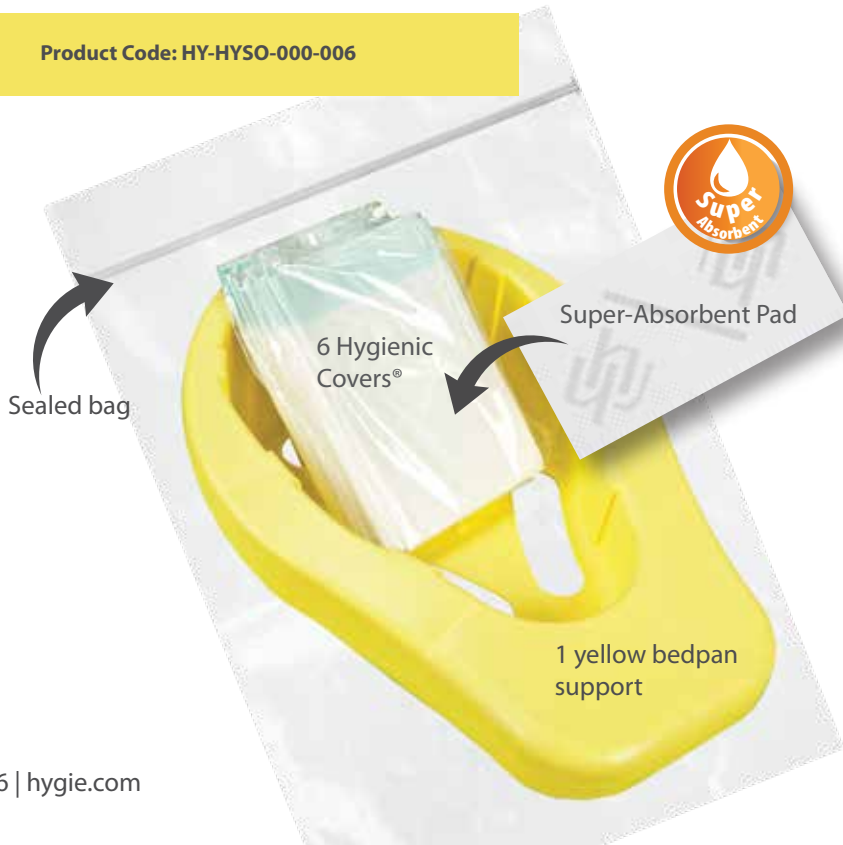

- Units per case: 12 bottles of 450g

hygienic™

HY-SO® Kit

ISOLATION OF BACTERIA

Product Code: HY-HYSO-000-006

Sealed bag

6 Hygienic Covers®

Super-Absorbent Pad

1 yellow bedpan support

The Hy-SO® kit is a prevention tool to proactively isolate a patient as soon as he or she presents the first symptoms of a nosocomial infection. The kit prevents the spread of pathogens, which may cause contamination.

The use of Hygienic Covers® allows health care personnel to quickly and efficiently finish their cleaning and disinfection tasks.

Hygie's containment technology contributes to the reduction of risks and costs associated with HAI's (healthcare associated infections).

The handle makes it easier for health care personnel to manipulate the support when caring for patients. The edges of the bedpan offer greater stability and improved comfort for patients.

SPECIFICATIONS

- The Hy-SO® kit includes: 1 Hy21® yellow bedpan support + 6 Hygienic Covers®
- Units per case: 6

Product: Scale
BA-KCY0-1000-000

HYGIENIC™ GARBAGE BAGS MADE OF RECYCLED MATERIAL

- White garbage bags with closure are ultra resistant to any type of waste
- Made of recycled material
- Can be used for multiple purposes such as home, medical or industrial use
- Thicker plastic film makes garbage bags much more resistant to tear or heavy weight
- The super-absorbent pads are sold separately
- Bag size: 62.2 x 45.7 cm x 24.5 x 18 in
- Units per case: 400 (10 rolls of 40 bags)

WET WASH GLOVES

WITH CLEANSING SOLUTION — SINGLE USE

Product Code: 1-GLOV15

hygienic™

**Fragrance free
Latex free**

The Hygienic™ Wet Wash Gloves made of polyester are both soft and ultra resistant. Containing no soap or alcohol, they are perfect for bed-ridden patients, incontinent patients, those requiring home care and can even be used during leisure activities. The gloves are soaked in an aloe-based cleansing solution, and are hypoallergenic and dermatologically tested. The cleaning gloves can be warmed up in a microwave oven for greater comfort*.

In health care institutions, the bowl-less toileting helps lessen the risks of transmitting pathogens from patients to health care personnel or even to other patients.

SPECIFICATIONS

- Glove size: 23 x 17 cm / 9 x 6.75 in
- Units per case: 210 (15 packs of 14 gloves)

*Ensure the temperature of the glove is comfortable for your patient.

GO GLOV® DISPOSABLE GLOVE

REPLACES WASHCLOTHS — SINGLE USE

Product Code: GA-SEC-01

Ready to use, the GO GLOV® can replace the washcloth for patients' personal hygiene in medical institutions, retirement homes, during home care services and in maternity wards. This single-use product offers a superior level of hygiene and decreases the spread of pathogens, which lead to contamination and HAI's (healthcare associated infections).

Made of very soft, lint-free cloth, it is resistant and hypoallergenic. Its fibres meet the OEKO-TEX® Standard 100 Class 1 requirements, which makes the product safe to use on babies' skin.

SPECIFICATIONS

- GO GLOV® size: 16 x 22 cm / 6.25 x 8.5 in
- Units per case: 1000 (20 packs of 50 units)

RESULTS of the Hygie[®] Body Fluid Management Technology*

- Reduced Contamination of the Patient's Environment

- Reduced Potential Nursing Steps

- For patients in Contact Precautions – steps were reduced from 20 to 9
- For routine patients – steps were reduced from 15 to 9

- Reduced Potential Costs

- The amount of potential PPE used was reduced, resulting in a potential cost savings of \$4.15 per bowel movement (BM) on Routine Practice and \$3.15 per BM on patient in Contact Precautions (hygienic liner = \$1)

- Reduced Infection Rates

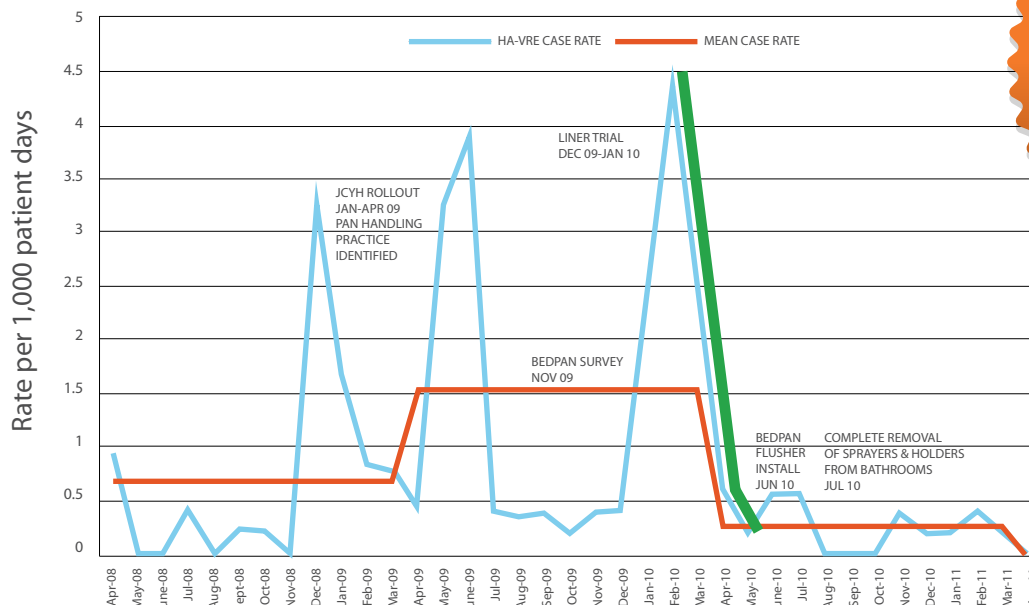

- Along with many other interventions, a drastic reduction in healthcare-associated VRE cases

- Reduction in the amount of hygiene products stored (and shared amongst patients) has also contributed to reduce VRE cases

A team approach was successful in understanding and addressing the cultural, behavioural, and environmental barriers that prevent the transition to safer practices.

CKHA Healthcare-Associated VRE Case Rate

The graph above demonstrates the change in mean healthcare-associated VRE rates from 0.68 in 2008 to 1.53 in 2009, and down to 0.26 for 2010

*Source: E. Vitale, B.Sc., MLT, CIC. Safer "Pan Handling" to Reduce the Rates of Vancomycin Resistant Enterococci - Giving staff the right tools to safely and efficiently do their job.

HYGIE ALU-CLASSIC®

100% ALUMINUM COMMUNE CHAIR

New technology to prevent infections

At the forefront of the fight against nosocomial infections, Hygie® is proud to present its new aluminum Alu-Classic® Commode Chair, which is devoid of any porous surfaces. Made in Canada, this model was specifically designed for hospitals and long-term care facilities.

- ✓ Aluminum Design
- ✓ Ultra-light, sturdy and stable
- ✓ 6 heights available
- ✓ Seat-floor height of 15 to 20 in (see models A and B below)
- ✓ Pivoting armrests
- ✓ Non-porous surfaces
- ✓ Rotates on itself
- ✓ Rustproof
- ✓ Easy to clean

	Model A: 15, 16 and 17-inch		Model B: 18, 19 and 20-inch Model

HYGIE ALU-CLASSIC®

100% ALUMINUM COMMUNE CHAIR

Pivoting armrests

The sturdy, secure armrests can be lowered by pressing a button. They also pivot along the seat axis, which frees that area and facilitates patient transfers.

Easy to clean

This commode chair was specially designed to minimize gaps and hard-to-reach spaces, ensuring quick and easy disinfection.

Wheelbase

The wheelbase of the Hygie Alu-Classic® Commode Chair's frame makes it highly stable and secure for the patient, reducing the risk of overturning.

Single-patient seats

The seats reduce the amount of time necessary for the disposal of body fluids and solids. Easily manipulated from the top of the Commode Chair, it simplifies the work of the health care personnel. The use of Hygienic Cover® is recommended. (Used with the Alu-Classic® Commode Chair and the Classic® Commode Chair on page 22).

"This commode chair effectively meets the needs of controlling infections in health care institutions because it does not contain any porous material, which facilitates cleaning and disinfection."

France - Nurse specializing in the prevention of infections

Adjustable height

The leg extender allows for optimal, patient-tailored adjustments. Six heights available. This adjustment provides additional comfort for patients and a more comfortable posture for care staff.

Rubber wheels

The 4-inch rubberized wheels offer 360° pivoting action and are equipped with individual manual brakes to fully immobilize the commode chair. The rubber also improves floor grip without leaving scuff marks.

Made in Canada

The lightness of the commode chair's frame is due to its aluminum construction. The slight tilt in the seatback provides better comfort to the patient.

STEEL COMMUNE CHAIR WITH *E-COAT* COATING

Sturdy and Classic

The Hygie Classic® Commode Chair was designed to meet the need of controlling infections in health care institutions. Hygienic Covers® may be used with the Hygie Classic® Commode Chair to limit the spread of pathogens and to prevent contamination of the environment.

The frame of the Hygie Classic® Commode Chair has a greater wheelbase depth than most commode chairs available on the market, which renders it safer and more stable.

Anti-splash PVC bucket (sold separately)

MANUAL CLEANING

HIGH RISKS OF CONTAMINATION

The disposal of organic waste in toilets and/or the use of spray wands are an unsafe practice due to the risks of contamination and transmission of nosocomial infections.

The use of spray wand

Fluorescent demonstration of splashing and contamination

THINK GREEN! THINK HYGIE!

REDUCE. REUSE. RECYCLE.

Developing sustainable business practices is not only critical to the future of our company, but also for the benefit of future generations.

Applying eco-friendly technologies allows us to create products that save natural resources and energy.

SUPER-ABSORBENT PAD 100% RECYCLED MATERIAL

Super-absorbent pads are made from 100% recycled material. No chloride, no aluminum, no alcohol and no perfume. Hygie's innovative technology saves approximately 306,000 lb/139,000 kg of incontinence product from landfills each year.

HYGIENIC COVERS® MADE OF RECYCLED MATERIAL

Hygienic Covers® are made from a rich mixture of high quality, recycled polyethylene resins. They are very resistant and offer an increased level of hygiene. The Hygie technology recycles approximately 99,000 lb/45,000 kg of plastic each year.

HY21® SUPPORTS 100% RECYCLABLE MATERIAL

All Hy21® Supports from Hygie, such as the Bedpan Support, the Vomit Support and the Urinal Support are made entirely of durable and recyclable polypropylene plastic.

PACKAGING 100% ENVIRONMENTALLY FRIENDLY

Packaging and shipping boxes are made from recycled paper and water-based ink. 100% recyclable.
